Education

Government Polytechnic Junagadh

Diploma in Computer Engineering

(2023 – 2026) – Present

CGPA: 9.45/10

Experience

The Barabari Collective

(Jun 2025 – Aug 2025)

Frontend Developer | Educational Platforms

- Developed the **Sitara Akka Admin Portal** used to upload and manage study resources in multiple languages with easy CRUD operations.
- Improved the Student Portal with a clean UI, bilingual content support, and smooth chapter-wise navigation.
- Worked with a structured state system using **Redux Toolkit (6 slices)** to handle nested resources and update screens instantly after changes.
- **Tech:** React 19, TypeScript, Redux Toolkit, Tailwind, MUI, Axios, Framer Motion

Techno ERP System (Lucknow) | Full-Stack Developer

(Oct 2024 – Present)

- Developing a full-scale **College ERP** used by admissions, finance, faculty and CRM teams.
- Built a secure **4-stage admission workflow** (Enquiry → Fees → Registrar → Finance) with permission-based routing and **Zod validations**.
- Implemented **HttpOnly JWT authentication** with 11+ roles, ensuring safe data access in dashboards and APIs.
- Built core modules like **Admission Tracker, Fee Collection, Lead CRM, Dues Management, Student Database** with exportable reports.
- **Tech:** Next.js 15, TypeScript, Express.js, MongoDB, React Query, Zustand, Tailwind CSS

Skills

Languages: JavaScript, TypeScript

Technologies: MERN, Next.js, MongoDB, TailwindCSS, Socket.io

Tools: Git, GitHub, Postman, VS Code

Projects

Smart Attendance System (QuickAttend) | MERN + Real-Time + WebAuthn

- Full-stack multi-role system (Admin/HOD/Teacher/Student) with **WebAuthn fingerprint login** for secure admin access.
- Implemented **geo-fenced attendance** using browser location validation and teacher approval flows.
- Real-time updates using **Socket.io** for alerts, session status, and instant mark entry reflections.
- Automated analytics using **ExcelJS + FullCalendar** including monthly reports, class performance, and download exports.
- **Tech:** React, Node.js, Express, MongoDB, WebAuthn, Socket.io, ExcelJS, Tailwind

GitPusher | AI Git Automation (npm + Dashboard)

- Published an **AI-powered npm tool** that automates commit generation and push workflows using **Gemini AI prompt suggestions**.
- Developed secure API dashboard with key-based access, **token hashing**, and rate-limited Git action triggers.
- Supports **automatic commit message generation, branch suggestions, staged push logs**, and CI-ready workflows.
- *1.2k+ downloads* on npm with growing adoption among open-source developers and teams.
- **Tech:** Node.js (CLI), React Dashboard, Gemini AI API, Express.js, MongoDB, JWT

Achievements

- Published **GitPusher npm package** widely adopted by developers (**1.2k+ downloads**).
- Built end-to-end production systems including an ERP and Real-time Attendance Platform.
- Contributed to educational platforms used by 1,000+ students preparing for board examinations.
